MRS. DELSA WALTON LEAVES SCHOOL BOARD

After twelve years of service on Albany's Board of Education Mrs. Delsa Walton will close her work for the city's children with the meeting of the board this coming Tuesday.

Mrs. Walton tendered her resignation to the Board on May 10, to take effect after the meeting on May 24. She has served on the Board since September, 1943, and has been a member of the community for 25 years. From June, 1940, through October, 1949, and again in 1953-54, she served as president of the Board.

Mrs. Walton's resignation was submitted because she, her husband, Owen, and their daughter, Diane, are moving to Pangunch, Utah, on May 28 to make their home. They have purchased a motel there which they will manage.

Mrs. Walton is vice-president of the Alameda County Trustees' Association, in which organization she has been very active, as well as serving on numerous committees of the California State School Boards Association. She was formerly president of the Cornell PTA, and the recipient of a life membership from that organization. Her activities have included work with the American Red Cross, Community Chest, and other welfare organizations.

In 1951 this veteran board member was a captain of the Community Chest, and for four consecutive years was residential fund campaign chairman for the Red Cross, as well as having once served as chairman of the Red Cross blood donor program. She has acted as publicity chairman for the ABC Chapter of the Children's Home Society, and is a member of the Delphian Society of Albany and Berkeley. Her two sons, now grown, are graduates of Albany schools and her daughter, Diane, has been attending Marin School.

Mrs. Walton concluded her letter of resignation with the following paragraph:

"In closing, my thanks go to all of the people who have made these years a memorable part of my life—to members of the staff who have become my loyal friends, to the teachers and principals for helping to make my children the good citizens they are; to Dr. Bryan and his assistants, Mr. Dennis and Mr. Woolworth, for the educational leadership that is recognized by those people who put the learning needs of the children and youth above all else; to the Board members, past and present, whose time and efforts have been and will continue to be used for the betterment of the schools."

Members of the School Board have requested members of the community to suggest names of persons they believe would be capable of filling the responsible position of board member, either to members of the Board or at the Board office at Solano and Talbot Avenues.

Albany Taxpayers Have Good Record On County's Books

With $657,126.94 paid and only $9,194, or 1.4 percent, delinquent, Albany taxpayers established a better record than the county wide average for 1954-55 property tax payments, County Tax Collector Edwin Meese Jr., announced today.

Although the delinquency date came ten days earlier than heretofore, due to a change in the state law, Meese reported that the total county and city property tax payments as of April 10, the closing date, bettered last year's record by one-tenth of one percent. Payments totalled $58,345,345 or 98.1 percent of the total billing as compared with 97.9 percent in 1954.

O the $59,481,813 total charge, the delinquent payments as of April 10 closing time totalled $1,136,467 or 1.9 percent. Uncollected items as of April 20 last year amounted to $1,171,333 or 2.1 percent of the 1953-54 total charge of $54,635,670.

Tardy payments, with penalties added, are being collected now and Meese estimates that the delinquency will be less than one percent at the end of the fiscal year, June 30.

COUNCIL CONFIRMS BUS CHANGE

Final approval of changes in bus stops at the Solano-San Pablo Ave. intersection, in general placing the stops on the far side of the intersection, was given at Monday night's meeting of the Albany City Council. However, a supplemental paragraph was added, leaving the effective date of the change-over to the mutual agreement of Albany's City Engineer and the Key System officials. This move was made to provide the utility company with time to alter instructions to operators and to make any changes in schedules that might be deemed necessary, and to avoid confusion.

The question of the application by Eugene W. Boettger for the rezoning of his property at 621 Talbot Ave. to permit construction of a new building at the front of the property, in addition to one at the rear, the property at present being in a one-residence zone, was denied. The matter had been referred to the City Attorney at the previous meeting, for an opinion as to whether rezoning would permit such construction. His decision was in the negative. The City Clerk was instructed to send Boettger a copy of the City Attorney's decision. It was held that Boettger could build a further structure on the property provided it were attached to the existing building and otherwise conformed to the city ordinances and building code.

CHRISTIAN SCIENCE

The fact that lasting beauty is gained through spiritual understanding of God's radiance and strength will be stressed at Christian Science services Sunday.

The Lesson - Sermon entitled "Soul and Body" includes the following verse from the Bible (Psalms 96:6): "Honour and majesty are before him: strength and beauty are in his sanctuary."

Among the correlative passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will be the following (247:10-12, 13-15): "Beauty, as well as truth, is eternal; but the beauty of material things passes away, fading and fleeting as mortal belief. . . . Immortality, exempt from age or decay, has a glory of its own — the radiance of Soul."

The Golden Text is from Psalms (104:1). 'Bless the Lord, O my soul. O Lord my God, thou art very great; thou art clothed with honour and majesty."

Golden Rule Code of Order's Membership

Well over a quarter of a century ago, a small group of funeral directors was banded together by their mutual desire to make it easy for anyone, anywhere, to select a dependable, ethical and moderately priced funeral director in time of need.

These funeral directors called their organization The Order of the Golden Rule. Other funeral directors all over the world became interested in the order, and it became necessary to create a sort of screening operation which would make sure that new members had the same high ideals that activated the original members.

A set of rigid qualifications were set up, dealing with the ethics, the equipment, the professional training and the experience of each applicant—but it was felt that something more was required.

Accordingly, it was required that the applicant must be approved by the people in the best possible position to know him. Families served, clergymen, physicians, lawyers and other business and professional men in his own community.

Every applicant has to pass these tests, that's why membership in the Order of the Golden Rule is such a coveted distinction. There is only one member of the order in each community, except in a very few of the world's largest metropolitan areas. The order makes very clear that this does not mean that only one funeral director in the community is worthy of this distinction. In many communities it is possible that all the local funeral directors could qualify.

Funeral directors who are affiliated with the Order of the Golden Rule make their identity known by their use of the symbol of the order. A knight in full armor, supporting a shield upon which is emblazoned the motto of the order, "Service Measured Not by Gold, but by the Golden Rule."

This symbol will be very familiar to the people of Albany, for it has been used by Ellis-Olson, the local member of the order, for eight consecutive years. It is interesting to note that, at this time, the Ellis-Olson firm starts its ninth year as the Albany member of the order—a record, a distinction, of which any funeral director might well be proud.

Right Deportment Helps Get License

There is a lot of value in deportment when one is taking an examination for a driver's license, points out the National Automobile Club.

A veteran police examiner who says it is hopeless to expect perfection from those who seek licenses, adds the further point that he is willing to excuse almost anything in the way of mental attitudes except cockiness.

"Confidence," he says "is fine. It's a great asset. But it is easily overdone. The chap who gets by best with me, even though he makes mistakes, is the one who mixes a bit of humility with his confidence."

Assigned to Duty on Submarine Sea Fox

Henry R. Nielson, seaman apprentice, USN, son of Mr. and Mrs. Henry Neilson of 1227 Brighton Ave., Albany, and husband of the former Miss Joanne M. Heaney of Berkeley, reported in April aboard the submarine USS Sea Fox for duty.

Nielson, a graduate of the Submarine School in New London, Conn., was employed by the Western Electric Co., of Berkeley and graduated from St. Mary's High School before entering the Navy in November 1954.

The Department of Motor Vehicles in 1954 revoked the California drivers licenses of 612 persons for drug addiction.

Oakland Army Base Will Ho'd 'Open House'

Oakland Army Base will hold an "Open House" on Saturday, May 21, from 10 a.m. to 4 p.m. in observance of Armed Forces Day.

Col. Theodore D. Kern, commanding officer of the Army Base, has extended an invitation to all residents of Alameda County and surrounding area to visit the base during the "Open House" to see the displays and demonstrations that have been arranged.

Visitors will be able to see the mighty Army guided missile called 'Nike," the defender of our skies against attack, and some of the Army's big guns, including 75, 90 and 105 millimeter howitzers. They will watch a mock battle staged by trained troops. One of the newest tanks will be shown. The Army Medical Corps will set up a field hospital, the Signal Corps a communications center, the Transportation Corps a locomotive, troop sleeper and hospital car.

As a special feature Colonel Kern has announced Army Base Messes will serve regular dinners to all visitors at 60 cents per meal between 12 noon and 3 p.m. Punch, coffee and doughnuts will be served free during the day.

DIFFERENT MEANING

For many centuries in Western Europe, a counting system based on 120 was used, and in medieval England, the word "hundred" really meant 120.

Duryea Built First Successful Car Back in '93

On a September day in 1893 a man back in Chicopee Fills in Massachusetts walked around a rather strange looking buggy that was standing on a quiet street at the edge of town, bent down by that buggy and spun a crank climbed into a seat behind a tiller, and sputtered off down the street for about 25 feet. When the buggy stopped rolling, he got out and spun the crank again, then got back behind the tiller and sputtered off for another two hundred feet before he rolled to a stop once more.

Thus, according to the National Automobile Club, J. Frank Duryea, co-inventor and builder of the first successful gasoline powered horseless carriage in the United States, planted the tiny acorn from which the mighty oak of the modern American motor vehicle business was to spring.

Charles and Frank Duryea had been born at Wyoming in Illinois. At an early stage in their career they had moved to Washington, D.C., where they had engaged in bicycle work. And then they had moved to Chicopee Falls in Massachusetts, where Charles, the dreamer of the two, had gotten the idea for the horseless carriage, and Frank, the practical mechanic of the two, had done most of the building.

The first gasoline engine they built was mounted on sawhorses in their barn and when they ran this engine it became red hot and at one time practically flew off the horses and hit the wall. So discouraged was Charles after this performance that he left for Peoria to continue with bicycle work.

Frank, however, was not so easily discouraged. He went to work with a will on the gasoline engine and the horseless carriage. He designed a carburetor and an efficient water jacket. He perfected many little points around the engine, and then mounted it in a special buggy he had prepared for it. This was the horseless carriage he took down in the barn elevator and towed over to Spruce St. to sputter his way into our inventors Hall of Fame on that otherwise uneventful September day in 1893.

United Crusade Names Leaders For Fall Drive

More than half the top posts for volunteer workers have been filled for next fall's East Bay United Crusade, according to an announcement by Robley Flynn, campaign chairman. Early recruiting of the needed 15,000 volunteers is planned this year so that each one may learn why the money is needed, how it is spent, and how the East Bay United Crusade fits into the United Bay Area Crusade—all questions which donors will want answered.

Leaders in Albany include William McAuley, Crusade cabinet president; Chief of Police Ralph Jensen, chairman; and the following department chairmen. Art Smith, public employees; Bert Griffin, public schools; Cecil Wentz, business, and Sid Wallace, commerce and industry.

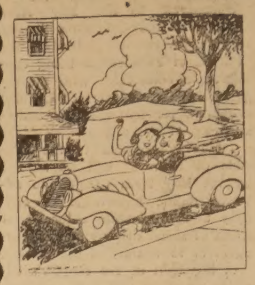

SIGNAL FOR SAFETY

One of the best ways in which a driver can assure himself against being involved in accidents is to let everyone else on the road know when he intends to turn or stop. This means regulation hand signals as well as your turn indicator and stoplight, says the California State Automobile Association.

Every driver should signal in plenty of time before turning, changing from one lane to another, slowing down or stopping. And these signals should be given correctly. Never leave the other fellow guessing as to what you intend to do.

The licenses of 27,139 California drivers were suspended last year by the Department of Motor Vehicles.

How Are You at Correcting Your Driver Mistakes?

We all make mistakes, even the best of us.

Hhis little adage, points out the National Automobile Club, applies in every field of human activity, including the field of automobile driving. When the skilled driver makes a mistake, however, you can always tell him from the unskilled drivers by the way he corrects his mistake.

Suppose, for instance, that he has slipped up on his constant habit of anticipation, of looking ahead in the traffic situation, and suddenly finds himself at a point where he wants to make a turn to the left or right but happens to be in the wrong lane. Being a skilled driver he will realize that to make any sudden and unexpected move in traffic, especially a sharp turn to the right or left is to court disaster. Being a skilled driver, he will continue on his way, get into the proper lanes, make the proper signal, and then make his own turn deliberately and safely at this point farther along the road.

How are you at correcting your mistakes? Do you show yourself to be a skilled driver?

Diagnostic Facilities Free at Deaf School

The California School for the Deaf, at Warring and Parker Sts. in Berkeley, is equipped with special facilities for the diagnosis and evaluation of hearing and speech disorders. This service has been widely used by local and distant hospitals and physicians and school systems, and is without charge, according to Dr. Steven Getz of the school.

The Department of Motor Vehicles in 1954 revoked the licenses of 13,558 California drivers.
